ON GUARD — Men from Washington Township stand alert with their National Guard unit, the 629th Field Artillery Battalion, in summer maneuvers just completed at Camp Hunter Liggett. One battery out of five in battalion will be relocated near Centerville on August 4, in a remodeled icehouse at the end of Alder Avenue.

Named this week to help coordinate dedication ceremonies planned for the armory's opening was LeRoy Broun, Air Force Reserve colonel and Centerville attorney. Broun was appointed by Romeo Brunelli, president of the local Chamber of Commerce. (Register Photo)

CENTERVILLE VOTE TO UNFREEZE CASH FOR TWO SCHOOLS

Construction of a seven-room addition to the Thornton Avenue school will start at once if Centerville voters approve a bond-and-aid ballot July 24.

This assurance came today from District Supt. Tom Maloney. He also said a favorable vote will pave the way for a third school in the Glenmoor Tract.

Maloney announced the State Department of Finance has okehed $165,077 in aid to help construct the Thornton addition —six classrooms and a cafetorium, plus furniture and ground improvements.

Trustees Allen G. Norris, Mary G. Rodrigues and Allan E. Walton have authorized Maloney to file for another $230,000 in funds to build the Glenmoor School.

At the July 24 election, Centerville will vote on whether to approve a $169,000 bond issue and accept $395,000 in State subsidies.

In order to qualify for the $165,077, the Centerville district must put up $35,000—from the new bond issue.

Maloney explains the Thornton addition and the Glenmoor school are necessary because (1) Glenmoor Homes plans 1100 houoses in the tract, (2) Alameda Home Corp. is starting 300, (3) F. J. Leonardo & Son are working on 73 houses nearby, and (4) several other subdivisions are on the planning boards.

AIRMAN HELD

Thomas L. Potts, 21, airman on leave from Randolph Field, Texas, was arrested Friday morning and tried before Judge E. A. Quaresma on a petty theft charge. He was accused of stealing tools from a home on Centerville-Alvarado highway. Potts pled guilty and was sentenced to 30 days as a condition of probation.

Coro Figures Shed Light on School Finances, Possible Mergers Here

(Fifth in a series on the Coro survey of Township incorporation, and the tax-supported districts which affect "cityhood.")

By STUART NIXON

An informative view of Washington Township's tax network is provided in the recent Coro Survey.

It shows, for instance, that five county-collected taxes hit every local taxpayer equally. These are:

1. Basic county tax: $2.13 per $100 assessed valuation. This pays for such items as the sheriff's office, judges, county officials, welfare.

2. Township Hospital District: 20 cents per $100.

3. Junior College tax (for local students sent to public junior college outside the county): 9.3 cents.

4. Mosquito Abatement District: 1.4 cents.

5. Flood control surveys and administration (no work): .7 cents.

Then there is the Alameda County Water District: almost every area—with the exception of a few outlying districts—paid 28 cents for that.

Sanitary district taxes—depending on bonded indebtedness—ran as high as $1.88 per $100. Some unserved areas of course weren't taxed.

Fire protection cost anywhere from 25 cents per $100 in Alvarado to 75 cents in Mission San Jose and 82 cents in Niles, according to the survey.

Finally came the largest levy of all—for public schools.

These costs ranged from $1.78 per $100 in Alvarado to $3.15 in Decoto. Even if there were no other factors weighing against Township-wide incorporation, this variance would bring opposition to making Washington Township into Washington City, if it brought school consolidation too. There is a natural reluctance on the part of the taxpayer to support a poorer district than the one he lives in.

Nevertheless there are those who see advantages in school district consolidation, even though the Township's eight communities should fail to join hands as a single city.

These proponents point out that a single, unified district, with a single board of trustees, a single set of administrators, and uniform policies, would promote economy and efficiency.

Opponents argue that centralized control is no guarantee of efficiency or economy, and contend that local control is best.

Whatever the argument, both sides may draw ammunition from the facts collected about the schools by the Coro researcher, Thomas A. DeRiemer. Some of his findings:

1. It cost each of the Township's 25,000 citizens an average of $39.07 this year to send children to elementary school, $14.59 to the high

NEW TEACHERS

Centerville Elementary School will employ two additional teachers for the 1953-54 school year. Mrs. Barbara Bawden of San Leandro, and Mrs. Catherine Anderson of Centerville, have been selected.

HILDE GUILTY!

A jury which deliberated 24 hours yesterday found Hildegarde Pelton, 32-year-old GI bride, guilty of second-degree murder in the fatal shooting of her husband near Niles February 1.

Hildegarde's insanity plea will be heard by the same jury in Oakland today.

The blonde, stolid confessed slayer showed no emotion as the verdict was announced before Superior Judge O. D. Hamlin. In vain her attorney, Benjamin Marlowe, had argued Bill Pelton drove her to shoot him, then kiss his forehead before fleeing

Deputy Dist. Atty. William Sharon countered that Annie Oakley could have been no more accurate than Hildegarde, who fired eight out of nine shots into Bill's head as he sat in their car

MAYOCK VINEYARD OPTIONED TO SELL

Sale of famed Los Amigos Vineyards, near Irvington, may take place within the next month, it was learned today by The Register.

Both Douglas Mayock, son of Mrs. Ann Mayock, owner of the 26-acre property, and Contractor Charles A. Russell of Niles confirmed reports that Russell has optioned the vineyard on Mission Road, and is considering building about 100 better-type homes there.

Russell said he was studying an engineer's map of the gently-rolling property to determine if the tract is feasible as planned. He said a decision will be forthcoming within 30 days, when the option expires.

The vineyard, founded by the late Robert Mayock, gained prominence among wine connoisseurs for the excellent vintages produced there.

Russell also disclosed he will build 64 homes on the old Bond Tract, a 160-acre parcel north of Irvington on Driscoll Road. He recently obtained county approval for several streets in the 50-year-old tract.

NEWARK CC ZONES APPROVED, BEAL CENTER REBUFFED

With scarcely a change, the Alameda County Planning Commission last week passed along the Newark Chamber of Commerce's recommendations for revamped zoning to the Board of Supervisors.

The commission rejected Promoter Arthur Beal's proposal to rezone a 25-acre site on Thornton Avenue for a $3,000,000 shopping center.

Instead, the body recommended that the parcel be zoned for two-family residences. Beal's plan failed to get Chamber of Commerce approval. He nevertheless submitted a petition to the commissioners favoring the center and signed by nearly 600 persons.

Substituted for Beal's commercial district was one bounded by Thornton, Baine, Sycamore and Cherry. This had been suggested by the Chamber of Commerce. It embodies much of the present shopping area.

Heavy industrial zoning, as requested by the Southern Pacific Railway, was extended 200 feet east to Cherry between Central and Mowry.

A 500-foot-deep light industrial zone was recommended across Cherry from the SP property. This presumably would serve as a buffer for the heavy industry on the SP land. Also sought for light industry was land lying along Cedar, where new Eastshore Freeway is scheduled to be built.

Agricultural zoning was suggested for land between Jarvis and Mayhew Landing Road near the SP tracks.

Single-family residences were recommended for most of the land between Central and Mowry, and future width lines were established for eight major streets.

Also recommended for zoning to single-family homes was an area between the SP tracks, Willow, Mayhew Landing Road and the Hetch-Hetchy acqueduct right-of-way.

No date has been set for a hearing by the supervisors.

FREE FIREWORKS HIGHLIGHT COUNTY FAIR PROGRAM FOR FOURTH OF JULY

Sparked by an elaborate fireworks display, many events are being readied for the Alameda County Fair this week-end.

The pyrotechnic display is scheduled Saturday night, July 4th, in front of the new grandstand, George Bayliss, chairman, announced. Together with an entertainment bill, the holiday feature will be open free of charge.

"Over 6000 seats will be available to Alameda County citizens, their families and friends," Bayliss invited.

Saturday has been designated as Farm Bureau Day with many activities scheduled dedicated to county youth progress.

Meanwhile thousands of visitors continue to trek to the historic exposition jammed with hundreds of colorful exhibits in the floricultural, livestock, agriculture, art and photography, horticulture, commercial, 4-H, home economics, and poultry departments.

Fair calendar:

Thursday, July 2 — Hayward Day.

Friday, July 3 — 4-H, Centerville, Decoto, Ashland, Alvarado Day.

Saturday, July 4 — Farm Bureau Day.

Sunday, July 5 — San Leandro Day.

Monday, July 6 — Niles, Mission San Jose Day.

Tuesday, July 7 — Alameda, Bay Area Ford Truck Council Day.

Wednesday, July 8 — Pleasanton Day.

Thursday, July 9 — Livermore Day.

Friday, July 10 — Berkeley, Albany Day.

Saturday, July 11 — Shriners and Newark Day.

Niles Broker Guilty

Clarence E. Pementel, 28, Niles, cattle broker, was found guilty last week of annoying an 11-year-old Centerville girl.

Pementel was acquitted of a lesser charge of indecent exposure. Judge Joseph Schenone of Livermore, sitting for Judge E. A. Quaresma, told Pementel to appear July 14 for sentence. The case was referred to the Probation Office.

Rate Rehash Denied

Application of the Citizens Utilities Co. of California for a rehearing on water rate increases in several California cities, including Niles and Decoto, was rejected this week by the State Public Utilities Commission.

The company was granted rate boosts ranging from eight to 60 per cent, effective June 16. But it asked to have the commission modify them upward, and to have many of them made retroactive. The PUC turned down the plea.

Hillview Meeting

Should Hillview Crest annex to Hayward, snuggle up to Washington Township, or go it alone?

Answers to these questions, based on the recent Coro Foundation survey, will be solicited next Thursday at a meeting of Hillview Cresters in their local school.

Peter Lojo, chairman of the citizens' committee, says Glenn Kendall and Richard A. Clark, who conducted the Coro study, have been invited to attend.

STONYBROOK WINS 'CLASS' BALLOTING

Is Stonybrook more elegant than Palomares?

The Niles Chamber of Commerce thinks so. The organization was asked this week by County Surveyor Wallace Boggs to recommend a uniform name for the road that connects Stonybrook and Palomares Canyons. The thoroughfare now bears both names.

Dr. E. C. Grau, cabin-owner on the road, plumped successfully for Stonybrook. Dr. T. C. Wilson was the lone holdout for Palomares.

"I think it's got more class," he explained.

Chamber Group to Quiz Stanley on Secretary Offer

Supervisor Chester E. Stanley will be asked to clarify his reported offer to share a secretary with the Washington Township Chamber of Commerce before the chamber embarks on any joint program.

This was decided Monday night at a meeting of seven Township Chamber committeemen in Niles.

"We want more facts. Then we may ask President Maurice Marks to call a special meeting to act on them," explained Committeeman Vernon Ellsworth.

No date for the meeting with Stanley has been set. Marks reported at two meetings of the Township group that Stanley is willing to let the Chamber share an office and pay half the salary of a receptionist-stenographer. However, the reported offer brought a variety of reactions, some hostile.

Other committeemen named by Marks to study the issue, who met with Ellsworth, include Gordon Cotton of Newark, Harry Weber of Centerville, Charles Venturi of Warm Springs, A. E. Alameda of Irvington, Jacob Koelsch of Mission San Jose and Frank Borghi Jr. of Decoto.

CHEST AIDS REC' PLANS WITH $790

Three local recreation projects were assisted to the tune of $790 at last week's meeting of the Washington Township Community Chest.

Largest contribution — $375 — went to the Alvarado Mothers Club for a learn-to-swim program this summer.

Mission San Jose Mothers Club got $115 for a similar project.

The Newark Recreation District, which will receive no tax money until September, was given $300 for operating expenses.

The money came from United Crusade allotments, according to Maurice B. Marks, publicity chairman for the Crusade.

Re-elected were all four Community Chest officers: President Bruce Michael, Vive-President Allen G. Norris, Treasurer Karl Chrstensen, and Secretary Carmelita Freitas.

Edward E. Enos of Niles was chosen to administer the new $1000 emergency disaster fund.

Industry Members, Directors Asked

Reorganization of the Washington Township Chamber of Commerce was strongly advocated Monday at an outspoken session of the Centerville Chamber.

Centerville is one of eight towns which contribute a total of $630 a year to support the central organization.

Discussion centered on last week's stormy meeting of the Township Chamber at which Secretary -Manager Eugene Manning resigned after his work was bitterly criticized. Said A. E. Alameda, a delegate from Irvington to the Township Chamber:

"The Township Chamber accomplishes nothing—all they do is tear people to pieces. If that's the kind of business they want, then I say we ought to break up the Township Chamber."

LeRoy Broun, secretary for the Centerville group, called the Township Chamber "an improvement club grafted onto a sewing circle."

He added:

"Its original purpose when we founded it (three years ago) was to promote commerce, not town-by-town, but on a Township-wide basis. We need a balanced community, and none of the eight towns is big enough for that. They should work together, but they don't."

Broun charged the individual town chambers of commerce "are letting little nationalistic views rule" by refusing to name a committee to study the recent Coro Foundation report on Township-wide incorporation. The study was turned down at last week's session.

Then Broun suggested a reorganization of the Township group, with businesses and industry allowed to buy memberships. Only the eight town chambers now are members. Broun said:

"Then the Township Chamber could think in terms of overall planning, roads through the area, selling the Township to industry. Let the individual town chambers worry about where to put the next street light."

Manning, who was present as a member of the Centerville body, added:

"Any group such as the Township Chamber should have a board of directors to make policy. The secretary shouldn't have to make it."

Romeo Brunelli reminded members, "You can't have a chamber of commerce which will promote industry without money to hire good people."

This brought a hint from Broun that the $1800 provided by Alameda County to assist the Township Chamber to operate may be withdrawn unless the organization "redefines its whole purpose." The

Battery Factory for Irvington if Planners Approve

Construction of a $50,000 battery-parts factory and planing mill at Irvington awaits approval by the County Planning Commission.

This was learned today with word that Fred W. Payne of San Francisco, president of the Bay City Separator Company, has applied for a use-permit for the mill on the Joseph Ranch between Irvington and Warm Springs.

However Payne's son, Fred Jr., explained the planning body has set over until July 15 a hearing on the application... Also under consideration, he said, is erection of the separator plant in an L-shaped piece of property off Roberts Avenue, behind the Irvington Hotel.

The plant would employ about four men, young Payne said, and the planing mill six or seven more. The mill would supply wooden parts for the battery separators, as well as lumber for home building here.

Bay City plans to move its entire operation from San Francisco to Irvington if the permit is granted, young Payne said.

SCHOOLGIRLS RAISE CEREBRAL FUNDS

Five Niles schoolgirls did their part last week in collecting funds for the cerebral palsy campaign.

In a door-to-door campaign, the youngsters solicited $51. They took the money to Oakland Saturday, gave it to TV star Buzz Cory to include with other drive funds.

The girls were Judy Preston, 13; Loretta Avilla, 11; Judy Stapleton, 10; Shirley Hoffman, 12, and Sharon Hoffman, 10.

"Almost everyone we asked gave," reported Judy Preston.

ALAMEDA DEFENSE VOLUNTEERS SET

Alameda County's trained civil defense volunteer force now numbers 11,445 men and women in Washington, Murray, Pleasanton and Eden Townships, Sheriff H. P. (Jack) Gleason reported to the board of supervisors in a two-year progress brief filed recently.

The report stated that trained recruits were distributed among the various civil defense services as follows: wardens, 3660; first aid and home nursing, 2620; evacuation-welfare, 1900; county schools, 1510; medical-health, 1000; sheriff's reserves, 400; engineering rescue, 225; Highway Patrol Auxiliary, 65, communications, 50; and Sheriff's Air Squadron, 15.

Mass care shelters for 2500 persons would be available within 12 hours in case of major emergency, the sheriff disclosed. Principal designated shelters are Santa Rita Rehabilitation Center; Alameda County Fair Grounds, Pleasanton; and the Castlewood Country Club, Pleasanton.

Fairmont Hospital and San Lorenzo High School have been designated as emergency hospitals to care for 3380 casualties; and eleven first aid stations are located in southern Alameda County schools. These have a current stockpile of $66,000 in blood plasma, burn dressings, litters and other medical supplies and equipment.

The Plaza Church at Los Angeles was established by the Mission San Gabriel in 1784.

DRAINAGE CONFAB AT CENTERVILLE

Discussion of (1) completion of the Eastshore Freeway, and (2) a "solo" storm-water drainage plan for the North Township were calendered for next week on Monday by the Centerville Chamber of Commerce.

Secretary LeRoy Broun said he wants both issues aired since time is running short.

Broun said a move is afoot to let Livermore-Pleasanton handle its own drainage and let the Township "straighten Alameda Creek."

Lee Williams and Judge Allen G. Norris suggested trying to get Livermore-Pleasanton to cooperate with the Township so that water conservation projects can be included, upstream. But Broun reminded that cattlemen "over the hill" spiked the proposal last January, adding:

"If they won't move, I believe we have to."

FIREWORKS RAP

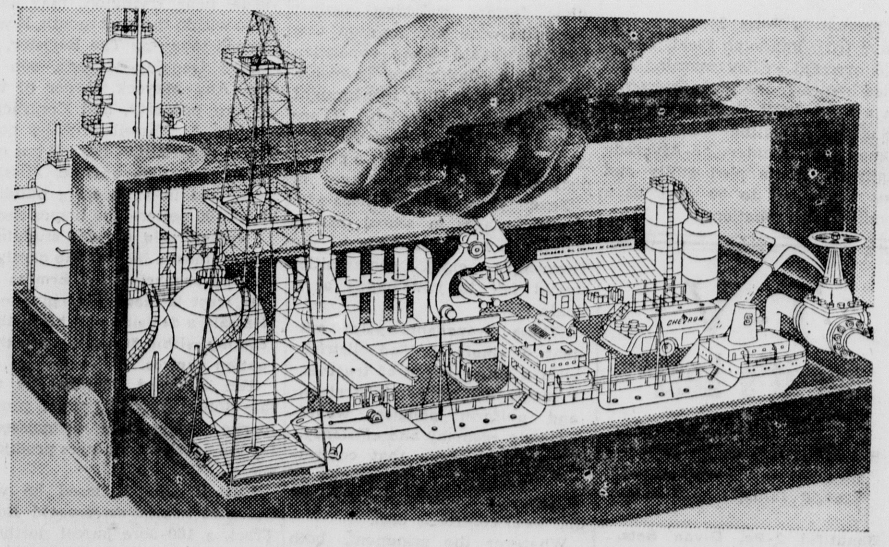
How his $51,000 tool kit works for you

Yesterday—*Manpower* and a drill rig contrived from a springy sapling, cable and drill bits sank our first wells. Since the rudimentary tools restricted their depth, they produced little oil. The "tea kettle" refineries of the day were limited, too. They utilized only a portion of the petroleum and turned out a small number of useful products.



Today—*Each of our 34,750 Standard Oilers works with an average $51,000 worth of tools.* They use diesel-electric drill rigs to tap oil pools as far as three or more miles deep. With refinery units that rearrange the structure of petroleum molecules they make each drop of crude useful. Ingenious production, refining and research "tools" like these enable Standard Oilers to make more than 1100 different products from a barrel of oil . . . gasoline 50% better than it was 25 years ago, and wear-saving lubricants; ingredients for wrinkle-resistant fabrics, low-cost plastics and work-saving household detergents; sprays to increase farm crops; asphalt for road builders, and many more. Standard's investment in "tools" to make oil serve you better amounts to $1,772,000,000. That's $51,000 worth for every Standard Oiler. With this $51,000 tool kit he not only makes more products for you—he makes them better, cheaper, more easily available. Questions or comments about our Company are welcome. United Crusade Home Campaign Will Be Directed By Mrs. Bruce Michael

During the next few months Washington Township women will be rallying to an important cause—the East Bay United Crusade: Under the leadership of Mrs. Bruce E. Michael of Warm Springs, who has accepted the chairmanship of this area's United Crusade Residential Department, the women of 10 township communities will unite as the Crusade's volunteer door-to-door campaign corps.

In the months preceding the October appeal, Mrs. Michael, with her regional chairmen, will direct intensive recruiting and training activities in this area.

When the campaign actually gets underway, volunteer Crusaders will carry the story of the Crusade to every home in the township. They will talk about the programs of the many health and welfare services united in the Crusade campaign and they will enlist support for these community services from all township residents who do not give to the campaign at their place of employment.

Mrs. Michael is no stranger to united campaigning. She served as vice chairman for Warm Springs in Washington Township's successful participation in the 1953 United Crusade appeal. She is a board member of the Washington Township Community Chest.

A resident of Warm Springs for five years, Mrs. Michael has taken an active interest in the life of her community. In addition to her Community Chest and Crusade activities she currently is serving as first vice president of the Council of Southern Alameda County Communities and as president of the Warm Springs Parent-Teacher Association.

Organizing a residential campaign is not a simple assignment, but Mrs. Michael knows her community and is confident of Washington Township's response.

There is a spirit of wonderful cooperation among the women of our township communities," Mrs. Michael declared. "I feel sure the campaign in our area will be a great success. The contributors here made an outstanding record last year. We are confident of an even better response this fall."

Among the communities whose feminine volunteers will go to work for the Residential Department are Warm Springs, Niles, Newark, Centerville, Irvington, Mission San Jose, Hillview Crest, Decoto, Alvarado and Alviso.

Her community, while a major interest of the Residential Department leader, must take second place, however, to the Michael family. Important parts of this active group are Bruce Michael, president of the Washington Township Community Chest and last year's United Crusade public relations chairman for this area, and Virginia, 12, Peter, 11, Mary, 8, and Sarah, 7, four youngsters who take a great deal of pride in their parent's activities.

'Cot Workers Sought

The apricot harvest will start next week on a limited scale, and laborers are urged to register at the State Farm Labor Office, 399 South Main Street, Centerville.

W. A. Allan, bureau officer, said today women and 'teen-agers are urged to register for work in apricot dry-yards. Children should obtain work-permits from their school principal.

Color picking is expected to begin about Wednesday or Thursday, and the full-scale harvest the following week, depending on weather conditions.

The Pipemen got back in the ball game in the second on Second Sacker Dick Smith's two-run homer. Third Sacker Joe Salvador, who previously had singled, came in ahead of Smith.

Garcia Outduels Telles, 2-0, as Vets Tighten Grip on League Lead

By BOB HIRD

The Veterans of Foreign Wars strengthened their hold on first place in Township softball standings Friday night, as they edged L & V, 2-0.

The game was featured by a thrilling pitchers' duel between the Vets' Ted Garcia and L & V's hard-luck hurler, Lee Telles.

The Vets picked up their first tally in the opening frame when leadoff man Mel Alameda banged out a three-bagger. Telles retired the next two men to face him, but an error by First Sacker Frank Rebeijo allowed Alameda to score.

Stan Roderick's two bagger with Alameda resting on second produced the Vets final run.

Garcia, in blanking the Centervilles, held them to three safeties, while fanning four and walking two.

Telles scattered six hits, struck out five and passed none.

BEARCAT HOMERS RUIN JEFFS, 13-1

By TONY ROGERS

Going for distance, the Centervill Bearcats romped to a 13-1 victory over a Jefferson Club nine from San Francisco here last Sunday.

A pair of homers by Hal Alameda and one each by Joe Dutra and Pitcher Frank Romero accounted for seven of the local runs.

In the third, the Bearcats loaded the sacks on successive singles by Roderick, Hernandez and Dutra. Then a long fly, a single, and two errors let four tallies across.

In the fifth, Alameda and Romero rammed successive four-baggers. In the seventh frame Alameda smashed another round-tripper with one on. Dutra's circuit clout came in the eighth with two aboard.

Romero fanned six and scattered eight hits.

No game is scheduled for next Sunday.

NEWARK PAIR TOP 'GUARD' BOXERS

A pair of Newark National Guardsmen won fistic honors at their annual training camp just completed west of King City.

Joe Wiltz, classy featherweight, copped two decisions to win the championship of the 49th Division Artillery in his class.

Bob Lunsford, Washington Hi baseball pitcher, showed he could pitch leather equally well in decisioning Al Avellone of Alameda, an older and more experienced fighter, for the light-heavyweight crown.

In Wiltz' last battle he outpointed Bob Meneze of San Jose, two-time AAU divisional champion. Wiltz' bolo punches were the deciding factor.

Both men are members of C Battery, 629th Field Artillery Battalion.

QUARRY PETITION ALARMS NILES CC

The Niles Chamber of Commerce may take a stand on a gravel quarry proposed by a San Jose firm for a location east of here.

This was apparent Tuesday when several members mentioned the request by A. G. Zicovich of Concrete Service Co. to operate the quarry at the junction of Mission-Sunol Road and Calaveras Creek.

The request will be heard July 8 by the Alameda County Planning Commission, sitting in Oakland.

Several local members expressed fear that a stream of heavy trucks would create traffic hazards in Niles Canyon, hauling the gravel. One said he heard there would be "a truck every 10 minutes, 24 hours a day."

President C. W. Chrysler authorized an investigation, for a possible recommendation by the chamber to the Planning Commission.

SUZY SEZ...

Just before he went on vacation, I passed one of our Township door-to-door bread salesmen, parked on the Niles highway eating his lunch. You guessed what it was, sandwiches and cup cakes! He says he doesn't eat all his profits but I notice he seems to be putting on weight. Too many samples, no doubt.

* * * *

I have seen many of my friends at the Fair. How about you? In spite of the heat it is well worth the drive. Take the family, they all will enjoy it. In fact, our ten-year old turns out to be an authority on chicken breeds. Showed us all up as ignorant city dwellers with information gleaned from our "egg man."

* * * *

A friend reports on what could have been a tragedy here in Orchard Park. An older boy, who knows it is against the law, was lighting fire crackers when a toddler picked up a lighted one. A quick acting child knocked the explosive from the baby's hand before it did any damage. The father who placed the dangerous playthings at the disposal of his son will find he is treated coolly by his neighbors, several of whom saw the near-accident.

* * * *

It's a shame that the front yard of one of our Township churches has been so neglected that it contrasts sharply with the well kept lawns near-by.

* * * *

Among things I have done for years, but you might not know about is the suggestion that you measure the quantity of vanilla, or other flavoring, the bottle top holds, and use it instead of a measuring spoon.

* * * *

One Orchard Park mother frequently joins her children under the sprinkler. One more hot day, and I too will succumb to the temptation.

* * * *

To make buttons stay on longer, next time you sew one on, put a drop of colorless finger nail polish on the threads when finished.

* * * *

Is Niles going to leave the Essanay celebration signs up until next year? Should be pretty tattered by then!

* * * *

Our six-year-old recently stated he was going to collect pictures of Lincoln. I was quite pleased until I learned that he was referring to the pictures found on pennies. Our favorite teen-ager then declared that pictures of Washington were more to his liking, such as dollar bills, not one-cent stamps.

* * * *

How observant are you? Our favorite ten-year-old noticed that the "Niles" sign on the hill above that town is visible as far away as the Newark city limits.

* * * *

It is illegal here in the unincorporated area of Alameda County to possess, explode, or sell fire works, with a penalty of six months in jail or five hundred dollars fine for those found guilty of breaking the law. The sheriff's department will cooperate in tracking down those who make these dangerous "toys" available to youngsters, and it is up to us as parents to help. One moment of carelessness could cause death or injury to one of our children. No one would give a child a lighted match and a cup of gasoline, but fireworks are just as dangerous. Of course, cap guns and sparklers are exempt from the ruling.

Remember, if a woman could have her own way she would never quarrel!

Stanley for Span

Supervisor Chester E. Stanley favors the Southern Bay Crossing priority, he told the Centerville Chamber of Commerce in a letter Monday.

Stanley replied to an inquiry directed last week. He said he agrees with the legislators who voted for the south span, adding that he feels "the most important issue is to refinance the bridges before one becomes toll-free."

However, Stanley reminded the Centerville group, the issue has not yet come before the Alameda County Supervisors for a vote.

Haystacks Ablaze

A cigarette believed to have been tossed from a car on the Mission-Irvington Highway last Sunday, destroyed eight haystacks on the property of St. Mary of the Palms at Mission San Jose.

Joseph A. Luiz, 40, of Decoto, who farms the land, estimated loss at $350.

Volunteer firemen from Mission San Jose confined the fire to a small portion of the hay field.

The "Star," San Francisco's first newspaper, was renamed "Alta California" in 1849 and published until 1891.

WHY NOT UNITY?

Mutual suspicion is a commodity one might expect to find in the United Nations, especially after Russia's postwar adventures, vetoes and tirades. There is logic in suspecting the motives of the Soviets, since past experience has shown a hidden gimmick in everything they do. If sometimes the Western nations are accused of non-cooperation with their Communist fellow-members in UN, there are plenty of reasons why.

Granting this state of affairs on the international level, we fail to see why it should exist in Washington Township. Yet it does exist. Suspicion of one community by another continually blocks effective action by the Township Chamber of Commerce, and has brought this central organization to the brink of disaster. Almost any worthwhile suggestion by one town is certain to bring forth the retort from one or two others that "you boys are out to get the better of us." Then the project collapses.

This newspaper cannot see the basis for such a feeling of suspicion. What motive could there be for Niles, say, to cheat Newark? Or Centerville to get the better of Decoto? What could Niles or Centerville gain? And how?

A person can stand in the middle of any of our eight towns and spit into the next one. Town loyalty is fine, but our towns are so close geographically that their interests mesh and overlap, no matter whether some folks like it or not. Population growth will bring them even closer in the next few years.

As the Township grows, so do its problems grow too. Taxes, sewage, schools, roads, drainage, planning, a greater measure of self-government—these are only a few of the issues that must be resolved before we can call ourselves a happy, balanced community. Otherwise this Township will be doomed to follow the "Topsy" development of our neighbors to the North—an expensive, undesirable outlook.

This is a plea for unity. The historical accident that made someone's grandfather settle in Nigger Corners, Hardscrabble or Gophertown shouldn't hold apart the 1953 residents of Irvington, Centerville or Niles—successors of these villages.

The machinery of unity is at hand: the Township Chamber of Commerce. It has been with us for more than three years. Inter-town bickering has weakened it instead of strengthening it. Now is the time to put aside petty jealousies, imaginary fears, and to get behind this instrument of Township cooperation. With that cooperation, there is nothing we cannot do. Without it, we are a small-scale Disunited Nations.

THE RESERVE MESS

America is fighting a protracted and expensive war with Communism. On the battle-lines, or standing to arms in Europe are less than 20 divisions of regular troops. Pentagon policy recognizes the fact that this is nowhere enough if full-scale conflict comes, and Pentagon policy reassures us publicly that these regular troops are backed with half again as many Reserve and National Guard units. Into these units, discharged veterans are supposed to be fed, to provide a trained, combat-ready bulwark if Russia strikes.

Actually, such is far from the case. The veterans do have a reserve-service obligation. But so vague is the law, and so slipshod its execution, that these men are allowed to "sit out" their obligation on inactive duty. Instead of filling out and helping train the Guard or Reserve, they are permitted to do nothing, to let their hard-won skills grow rusty and obsolete.

As a result, National Guard divisions, which could use these veterans to such good advantage, have to struggle to keep even at half-strength. Army Reserve units fare worse. They are mostly officer-pools, top-heavy spiritless organizations which meet once a month to hear someone lecture on the composition of the Smoke Generating Battalion.

In time of prolonged crisis, this is inexcusable. We cannot afford to keep huge armies in the field indefinitely. But we can make good use of our trained reserves—if we will. Congress should redefine its reserve policy to halt this sinful waste.

school. But because of State aid, amount raised from local property taxes was only $13.70 and $8.40 per capita.

2. There are almost 5000 students enrolled in grammar and high schools here, virtually double the number five years ago.

Assessed values of the nine school districts vary widely. They range from $1,001,945 in Mission San Jose to $6,685,320 in Irvington, where the PG&E power plant supplies two-thirds of the tax base.

4. The valuation does not relate to the number of students to be cared for: "wealthy" Irvington has about 435, while Decoto, with an assessed valuation of $4,842,110, has 1158 youngsters in classes.

5. Bonds outstanding vary in amount too. Alviso has $60,000; Centerville $142,000, Decoto $181,000, Irvington $319,000, Newark $252,000, Niles $121,000, and the high school a recent $1,500,000 issue.

Naturally the tax rates will vary from one district to another. As listed by DeRiemer, they are:

Alvarado	$1.786
Alviso	1.936
Centerville	2.506
Decoto	3.146
Irvington	2.126
Mission San Jose	2.086
Newark	1.992
Niles	2.016
Warm Springs	2.05

Budgets for the elementary schools this year ran $976,757, and for the high school, $364,763.

As a sidelight, DeRiemer estimated that if enrollment continues at the present rate, Washington Township will have almost 6000 children in school next spring.

That, and not consolidation, is the main concern of school administrators and trustees as the 1952-53 school term ends.

money comes from county advertising funds, he explained, and is supposed to be earmarked for promotion work. Two thirds of the chamber budget is supposed to come from local contributions, Broun added.

Harry Weber, a delegate from Centerville, disclosed the Township Chamber has received a demand for an accounting on the $1800. He said the demand came from the Oakland Chamber of Commerce, through which the fund is distributed. However, several other South County chambers also have received such letters, he added.

Brunelli warned "the Township Chamber isn't doing what it's supposed to do, and if it doesn't, it won't get that money."

Broun said Supervisor Chester E. Stanley told him last week he believes "the Township Chamber needs to have its whole purpose redefined.' Broun declared:

"Those people aren't thinking Township-wide. They're letting little nationalistic views rule them. And that's why we don't have control over our own area, why we can't get any planning."

Allan Walton, last years president of the Township Chamber, concluded on this note; referring to two towns which voted against a Township-wide study of the Coro Report:

"Decoto means well — Newark too. But still they opposed a Township-wide survey. It's going to be a slow educational process."

INFANT DIES

Services were held Saturday at Chapel of the Palms, Centerville, with burial in Holy Ghost Cemetery, for the infant son of Irene and George Cole of Seventh Street, Decoto, who died shortly after birth. The father was rushed home from Camp Hunter Liggett, where he was attending National Guard training. This was the couple's first child.

BUSY MONTH FOR FIRE DEPT.

The Decoto Fire Department had a busy month in June, according to Fire Chief Roland Bendel.

There were 17 alarms of fire, causing the fire department to travel a distance of 68 miles. With the exception of two, all were grass fires.
